Policy for exception to scheduling guidelines:

Modalities

Virtual Classes

Virtual classes should have a section number that starts with V and all content will be delivered on-line. Developmental classes should not be taught as virtual classes.

Hybrid Classes

Hybrid classes should have a section number that starts with HY and meet less than 50% of the required 750 minutes per credit hour. Meetings should be held at regular intervals throughout the semester (weekly or biweekly). Hybrid classes should be scheduled so that rooms are appropriately utilized. For example, if a hybrid class meets every Tuesday from 9:30 – 10:45, there should be another hybrid class that meets on Thursday from 9:30 – 10:45 in the same room. Additionally, if a hybrid class meets every other Monday evening from 5:30 – 7:15 starting the first week of classes, another hybrid class could meet at the same day/time starting the second week of classes. This will ensure full room utilization.

Night Classes

Classes that start at 5:00 or later are considered night classes and should have a section number that starts with N.
