

Guidelines for Fair Use of Images

Photocopying

Photocopying images for classroom use is acceptable fair use.

Slides

Purchase slides when possible and do not make duplicates. When making slides for use in the classroom because they are not available for sale, make only one copy of a picture, and do not make copies of every picture in a book. Do not digitize slides. Consider linking.

Clip Art

Read the license before using clip art and abide by any restrictions, such as "do not digitize."

Copyright Notice.

Always include copyright information with each image used.

Content reproduced with permission from NVCC.
