## 2019-20 Enrollments and Student Success, by Program

**For students enrolled in a given year, what is their status as of the next fall?**

FTE = Full Time Equivalents, determined by the total number of annual credits taken divided by 30.

UDT = Unduplicated annual headcount.

The "Graduated" columns include all graduates who were enrolled in that program of study for the given year. This may differ from the number of overall graduates in that program. "Graduated" also includes graduates from the trailing summer.

Data Sources: VCCS Master Files; National Student Clearinghouse
